Extract from Memorandum dated 7363
22/5/1964 addressed to M (A) & submitted
by the Fishermen & Fish curers of Kudipi Jalka

PROVISION OF FISH-MEAL PLANT: There is a great demand from internal and external markets for a fisheries bi-product called 'Fish Meal". Due to lack of facilities for converting fish like sardines, mackerels etc., into fish-meal, the fishing community has been losing in thousands every year. We strongly urge upon you, Honourable Sir, the necessity of establishing with immediate effect a "Fish-Meal Plant" in this most popular fishing centre viz; Udyavar-Malpe.
